Insurance sales! How many people feel its another sale for another dollar. Working with Family Heritage is not that. Working with Jake is easy. He sat and listened to understand the situation for each of us. He did want to make a sale for us! He wanted to understand how he and Family Heritage could best serve us. Each person that worked with Jake was not only personable but worked to learn each person that came to them. Our schedules demand our attention 24-hours a day. Jake understood that and was very patient. Many of our staff chose to invest in their life because of Jake.

Thank you, Jake!

Respectfully,

Josh Loyd
Chief
Audrain Ambulance District
