To whom it may concern,

My employees and I at Dondelinger Ford would like to recommend anyone that wants their employees taken care of to at least sit down and take a look at what Justin Kurtz, Dan Persons, and Family Heritage have to offer. We have been working with Justin and Dan for over 2 years and during that time he has been nothing short of perfect. When the guys need them they are usually here within a day or two and helps make sure their claims are paid and that they understand what they have. The company has paid my guys claims in a very timely manner and in most cases, they felt they knew what they were getting before they got it.

The things we like about Justin Kurtz, Dan Persons, and Family Heritage.

1. A local agent that is here when we need him.
2. The company gives you all of your unused money back after 20 years. We don't have to waste our money.
3. We get the opportunity to put a backup plan in place. Most of us had never even thought about things like this until Justin came in.
4. His services are completely FREE to the company.
5. No paperwork or payroll deductions to mess with. He works with them individually.
6. He sits with each person that wants to sit down and helps them figure out what plan is best for them. He was never pushy or made employees feel like they had to get something.
7. He stops in and checks on us and reminds our employees of what they have.

Recently I had an employee down in the shop with medical emergency and ambulance out front. Justin drove by and took the time to phone me and make sure everyone was all right. This doesn't happen with other agents!

Rodney Oviatt
Service Manager at Dondelinger Ford
