Comments: I am so grateful to Family Heritage. I fell and broke my pelvis. Although I have health insurance through

Medicare and all of the Medicare supplements (A,B,D,&G), there were still so many unexpected out of pocket expenses my health insurance did not cover. For example, we had travel expenses, parking expenses, etcetera, and my daughter had to take several days off to help me. Health insurance doesnt cover my family members time off of work and I could not have done anything without their help. Health insurance doesn't cover any of my other out of pocket expenses. The money Family Heritage sent me was a Godsend and I will always be grateful to Family Heritage for being there for me financially during this very scary and insecure time. With out them I would have had to use my retirement savings to pay these expenses. (If necessary, please continue on the other side.)

people will come down with some form of cancer these days. And

omments: This policy should be a no-brainer for anyone who drives a car or motorcycle. Accidents don't have to be YOUR FAULT to cost you dearly: just ask the lady who pulled out right in front of me. No one ever says. "I had an on-purpose today." It's always unexpected. I had never had an accident in my life before this happened. I had already received almost \$8,000 from the accident plan and I just got another \$2,700 from the ICU benefit on my cancer plan. This insurance is the gift that keeps on giving!

I'm really glad this policy has a "refund benefit". I've seen plans like this offered at work, but always passed because I didn't want to risk losing money. I signed up for this hoping it would just be the savings account that I always meant to start. I'm pretty sure that I would not have signed up without the money-back feature.

(If necessary, please continue on the other side.)

"I really wish I'd have listened to my '6th sense' when I Calumet Inn first saw this policy back in the summer of 2002.

my husband's opinion. I obviously did a poor job of explaining it to him because his response was, 'We don't need that. We have full coverage with our medical insurance.'

"Without a good demonstration on how it worked, he lacked the understanding to make a good, informed decision. Because he didn't think we'd ever need it, he talked me out of it."

"Now (less than a year later) he's been diagnosed with glioblastoma, a form of brain cancer, so he doesn't qualify as he once did. I should have gotten us both covered while we were both healthy. I've got myself covered now, but wish I had not waited. With the return of premium there's absolutely nothing to lose anyway by getting covered while there's so much to lose by not getting covered."
